

Technical Data Sheet

Product name:	Aluminum Chloride anhydrous
Product Form:	Solid
Chemical name:	Aluminium Chloride anhydrous
Synonym:	Trichloroaluminum
CAS No:	7446-70-0
EINECS No:	231-208-1
Molecular formula:	AlCl ₃
Molecular weight:	133.34
Structure formula:	

Chemical Specification

Appearance	Granules/powder from white or grey-white
Assay (%)	99.30 min.
Iron (%)	0.01 max.
Titanium as TiCl ₄ (%)	0.3 max.
Sulphate as SO ₄ (%)	0.02 max.
Heavy metals as Pb (%)	0.015 max.
Particle size (1-5mm) (%)	90.0 min.

Remarks: we have different specifications, herewith is only one of them, please contact us for others

Packing: In 250kgs MS drum/500kgs jumbo bags/25kgs bags duly palletized

Shelf life: 6months
